

October 9, 2020

Eagle Nation,

As per our communication plan, the District will provide periodic updates related to COVID-19 quarantines and isolations. On September 25, Joplin Schools had 20 student isolations and 125 student quarantines. We also had 11 isolated employees and 13 quarantined employees.

As of today, we have 13 student isolations and 89 student quarantines. Additionally, we have 7 isolated employees and 7 quarantined employees.

These are not concentrated on any particular campus.

We continue to stress the importance of not only managing hygiene and social distancing at school but also while we are away from school. We are still comparing very well to our neighboring districts due in large part to the strict handling of protocols and consistency among our students and staff throughout the school day. I applaud everyone's efforts to keep us safe, learning, and in school.

Keep up the good work Eagle Nation!
