

October 16, 2020

Eagle Nation,

As per our communication plan, the District will provide periodic updates related to COVID-19 quarantines and isolations. On October 9th, Joplin Schools had 13 student isolations and 89 student quarantines. We also had 7 isolated employees and 7 quarantined employees.

As of today, we have 20 student isolations and 92 student quarantines. Additionally, we have 3 isolated employees and 11 quarantined employees.

As has been the case each week, these are not concentrated on any particular campus.

We continue to stress the importance of not only managing hygiene and social distancing at school but also while we are away from school. We are still comparing very well to our neighboring districts due in large part to the strict handling of protocols and consistency among our students and staff throughout the school day. I applaud everyone's efforts to keep us safe, learning, and in school.

Keep up the good work Eagle Nation!
